Lab 1

Introduction And Account Configuration

Purpose

To learn about the lab and set up a computer account for use in lab during the semester.

Background Reading And Preparation

Read about the *bash shell* available with Linux, and find out how to set Linux environment variables.

Overview

Modify your lab account so your environment will be set automatically when you log in.

Procedure And Details (checkmark as each is completed)

_____ 1. Modify your account startup file (e.g., *.profile* or *.bash_profile*) so your PATH includes directories as specified by your lab instructor.

_____ 2. Log out and log in again.

_____ 3. Verify that you can reach the files and compilers that your lab instructor specifies.

Notes
